

How a Half-Penny Benefits Mount Herman Exceptional Student Center

A Referendum for School Facilities and Economic Growth

The Direct Impact on Mount Herman Exceptional Student Center at Reynolds Lane & Windy Hill

Students attending Mount Herman Exceptional Center will have the opportunity to attend a newly built campus at Reynolds Lane (West) or Windy Hill (East).

In some cases, with so many aging schools in Duval County, it is actually more practical for cost and/or modernization purposes to replace a school rather than continue to fix, renovate, or upgrade it. Such is the case with this school. The students deserve a more modern facility to accommodate today's style of teaching and learning.

As a result of extensive surveys and inspections, this school will be replaced with a brand new school. It will be built on the same campus site. Once the new structure is in place, the old building will be removed.

Mount Herman Allocation \$762,100

 **Site Removal Allocation** \$762,100
Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building.

Windy Hill Conversion to ESE Center \$9,394,400

 **New Construction Allocation** \$8,750,000
The new construction allocation is calculated based on student capacity. This funding is designed to cover the cost associated with the building of new schools or replacement buildings.

 **Site Removal Allocation** \$644,400
Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of both sites.

Reynolds Lane Conversion to ESE Center \$9,247,470

 **New Construction Allocation** \$8,750,000
The new construction allocation is calculated based on student capacity. This funding is designed to cover the cost associated with the building of new schools or replacement buildings.

 **Site Removal Allocation** \$497,470
Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of both sites.
