

How a Half-Penny Benefits

Samuel A. Hull Elementary School

A Referendum for School Facilities and Economic Growth

The Direct Impact on Samuel A. Hull & Pickett Elementary

Students within the Samuel A. Hull and Reynolds Lane districts will have new boundaries designating them to the newly built Pickett Elementary School.

In some cases, with so many aging schools in Duval County, it is actually more practical for cost and/or modernization purposes to replace a school rather than continue to fix, renovate, or upgrade it. Such is the case with this school. The students deserve a more modern facility to accommodate today's style of teaching and learning.

As a result of extensive surveys and inspections, Pickett Elementary will be replaced with a brand new school. It will be built on the same campus site. Once the new structure is in place, the old building will be removed.

S.A. Hull Allocation

\$415,490

Site Removal Allocation

\$415,490

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of both sites.

Pickett Allocation

\$28,506,560

New Construction Allocation

\$28,198,000

The new construction allocation is calculated based on student capacity. This funding is designed to cover the cost associated with the building of new schools or replacement buildings.

Site Removal Allocation

\$308,560

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of both sites.
