

# How a Half-Penny Benefits

## Brentwood Elementary School

A Referendum for School Facilities and Economic Growth

### The Direct Impact on Brentwood & North Shore Elementary

Students within the Brentwood district will have new boundaries designating them to the newly renovated North Shore Elementary School.

First and foremost, the school will use referendum dollars to improve safety and security. It means system upgrades and improvements such as new security cameras, additional fencing, and more secure entrances and exits.

The District will also receive money to fix backlogged repairs and maintenance items. That can be anything from drainage on school grounds to flooring and roof replacement. If the air conditioner needs an overhaul, the funds will be there to take care of it. Some things you can't see, such as plumbing or electrical problems, will be addressed as well.

Overall, students will have a safer, sturdier, and better functioning building in which to learn and enjoy.

### Brentwood Allocation

**\$580,560**

#### Site Removal Allocation

**\$580,560**

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of the Brentwood site.

### North Shore Allocation

**\$5,461,482**

#### Safety & Security Allocation

**\$770,565**

The safety and security allocation is calculated based on the square footage of each school site. This funding is designed to cover any site hardening such as security cameras, gates, and alert systems.

#### Facility Condition Improvements

**\$4,690,917**

The deferred maintenance allocation is calculated based on projected maintenance of each school site. This funding is designed to fix all current and projected maintenance issues over five years.

Our Schools. Our Community. Our Future.
