

How a Half-Penny Benefits

Hyde Grove Elementary School

A Referendum for School Facilities and Economic Growth

The Direct Impact on Hyde Grove & Hyde Park Elementary

Students within the Hyde Grove district will have new boundaries designating them to the newly renovated Hyde Park Elementary School.

This school will receive a large amount of referendum dollars so it can handle growth as well as repairs and maintenance. But the first priority will be safety and security. That means system upgrades and hardware for items such as security cameras, additional fencing, and more secure entrances and exits.

Repairs that were put off due to lack of funding will be the first to receive help. That means anything from recreation equipment to drainage fields on school grounds. The school is eligible for roof repairs and exterior facade improvements. If the air conditioner needs repair or replacement, the funds will be there to take care of it. Some things you can't see, such as plumbing or electrical problems, will be addressed as well.

Since this school has portable classrooms, current over enrollment concerns, and/or future growth potential, additional classrooms will be added to replace portables and/or provide classrooms to reduce over enrollment concerns and accommodate future growth.

Hyde Grove Allocation

\$509,360

Site Removal Allocation

\$509,360

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of the Hyde Grove site.

Hyde Park Allocation

\$16,828,554

Safety & Security Allocation

\$282,850

The safety and security allocation is calculated based on the square footage of each school site. This funding is designed to cover any site hardening such as security cameras, gates, and alert systems.

Facility Condition Improvements

\$1,833,704

The deferred maintenance allocation is calculated based on projected maintenance of each school site. This funding is designed to fix all current and projected maintenance issues over five years.

New Construction Allocation

\$14,712,000

The new construction allocation is calculated based on student capacity. This funding is designed to cover the cost associated with the building of new schools or replacement buildings.

Additions

20 Classrooms

These additional classrooms/wings are designed to accommodate any projected growth or removal of portables at the school site.
