

How a Half-Penny Benefits

Pine Estates Elementary School

A Referendum for School Facilities and Economic Growth

The Direct Impact on Pine Estates & Highlands Elementary

Students within the Pine Estates district will have new boundaries designating them to the newly built Highlands Elementary School.

In some cases, with so many aging schools in Duval County, it is actually more practical for cost and/or modernization purposes to replace a school rather than continue to fix, renovate, or upgrade it. Such is the case with this school. The students deserve a more modern facility to accommodate today's style of teaching and learning.

As a result of extensive surveys and inspections, Highlands Elementary will be replaced with a brand new school. It will be built on the same campus site. Once the new structure is in place, the old building will be removed.

Pine Estates Allocation

\$354,050

Site Removal Allocation

\$354,050

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of both sites.

Highlands Allocation

\$28,862,910

New Construction Allocation

\$28,198,000

The new construction allocation is calculated based on student capacity. This funding is designed to cover the cost associated with the building of new schools or replacement buildings.

Site Removal Allocation

\$664,910

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of both sites.
