

How a Half-Penny Benefits

Love Grove Elementary School

A Referendum for School Facilities and Economic Growth

The Direct Impact on Love Grove Elementary School at Englewood & Spring Park Elementary

Students within the Love Grove district will have new boundaries designating them to the newly built Englewood Elementary School or newly built Spring Park Elementary School.

In some cases, with so many aging schools in Duval County, it is actually more practical for cost and/or modernization purposes to replace a school rather than continue to fix, renovate, or upgrade it. Such is the case with this school. The students deserve a more modern facility to accommodate today's style of teaching and learning.

As a result of extensive surveys and inspections, this school will be replaced with a brand new school. It will be built on the same campus site. Once the new structure is in place, the old building will be removed.

Love Grove Allocation

\$715,650

Site Removal Allocation

\$715,650

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building. This cost is associated with the removal of both sites.

Englewood Elem Allocation

\$14,565,610

New Construction Allocation

\$14,099,000

The new construction allocation is calculated based on student capacity. This funding is designed to cover the cost associated with the building of new schools or replacement buildings.

Site Removal Allocation

\$466,610

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building.

Spring Park Allocation

\$25,847,200

New Construction Allocation

\$25,378,200

The new construction allocation is calculated based on student capacity. This funding is designed to cover the cost associated with the building of new schools or replacement buildings.

Site Removal Allocation

\$469,000

Upon the completion of new construction, the site removal allocation is based on the size of each school site to remove either part or all of the building.
